In traditional markets, clearing and settlement are often invisible to end-users, but they're where the real leverage is. Tempo would give Stripe a chain purpose-built for predictable fees, deterministic settlement times, and merchant distribution that nobody else can match. This is 20 years of payment-processor muscle memory applied to crypto rails.

A quick push below support (often just a wick), followed by an aggressive reclaim and a strong close back inside the range.

may be down 4.3% in October so far, but optimism around the month's historically bullish trend remains intact. Since 2019, Bitcoin's average October gain has been near 20%, with a median return of about 15%. While this year's performance currently lags, market participants are looking to macroeconomic policy shifts for potential fuel.
