North Korean hackers have adopted a method of deploying malware designed to steal crypto and sensitive information by embedding malicious code into smart contracts on public blockchain networks, according to Google’s Threat Intelligence

Group.

Kraken attributes the shift to the country being “more densely populated with professional traders than other regions” it operates in.

Despite growing concerns over VC influence on the blockchain space, the industry still relies on traditional investment funds to attract more mainstream capital for sustained development.

If BTC continues to follow its prior fractal, the market may enter a consolidation phase lasting several weeks. In Q1, the recovery phase extended nearly 45–55 days, forming a true bottom only in late April. Applying the same timeline suggests that a gradual recovery may not materialize until late November or early December.
