DOGE is up around 1.6% today and changing hands just shy of \$0.20. The meme coin has dropped by 25% in the last month and is now more than 72% off its 2021 all-time high of \$0.73.

Digital wallets are essential tools for entering the blockchain world. They are not only used to store cryptocurrencies but also to manage users' digital identities and interact with DApps. According to different storage methods, digital wallets can be divided into hardware wallets, software wallets, and paper wallets. Among them, hardware wallets have the highest security but are less convenient to use; software wallets (including desktop wallets, mobile wallets, and web wallets) are convenient to use but have relatively lower security. Choosing a suitable digital wallet requires balancing security and convenience according to individual needs and asset scale.

"The conventional wisdom was that the SEC was only going to allow 2X leverage going forward, but these filings suggest that it may be willing to allow more volatile products to hit the market," Roy wrote. "If they launch, these would be extremely risky funds designed for the most aggressive short-term traders."
