SearchGPT is the latest development in what appears to be a new era in web search, which The Verge's Nilay Patel has termed "Google Zero." This approach

prioritizes practicality over variety: instead of presenting a list with different sources and approaches to a specific query, which encourages users to do their own research, AI-powered search engines opt for a more direct tactic, providing concise, summarized information responding exactly to what users are looking for.

Investors sank about \$477 million and \$142 million into the Bitcoin and Ethereum funds, respectively, last week, according to U.K. asset manager Farside Investors.

The meme coin group has been gloating online about the attention their marketing gimmicks have been receiving, encouraging each other to share and repost any mention of their stunts in the hopes of getting more people to buy their token.
