The introduction of Google's AI summaries has raised huge red flags for web publishers, however, as users are less likely to visit their sites if the information is extracted and provided up front. The issue is compounded by AI's tendency to hallucinate, and even provide dangerous answers based on flawed sources.

Not everyone in crypto has popped open the champagne following Waller's announcement, however. Caitlin Long, founder of Custodia, a Wyoming-chartered crypto bank that has sought for years to earn a full-fledged master account, cautioned Tuesday that Waller specified the Fed's new program would apply to "legally eligible entities" if enacted—and that the devil is in those details.

Shareholders welcomed the strategic expansion, as CleanSpark's stock price rose over 13% on Monday, after rising 140% year-to-date in 2025, according to data from Google Finance.

ReversingLabs says the malicious packages attempted to overwrite legitimate commands in order to extract sensitive database files.

It added that there was a "meaningful divergence" of opinion regarding where we are in the market cycle, with 45% of institutions believing markets are in the late stages of the bull run, compared to just 27% of non-institutions.

"We are competing with China, so we need the best company to let us land on the moon as soon as possible. SpaceX has won a contract to build HLS, but the progress is slow," said Duffy in a CNBC interview on Monday.
