This surge in activity also served as a real-world stress test for the Algorand blockchain. With tens of thousands of participants generating nearly 300,000 transactions, the network maintained its performance. Users experienced the platform's "low fees, instant transaction finality and zero transaction failures" firsthand.

"If there were to be a material flight from the banking system, I would be taking action," Gould said, noting that "highly elected officials" and trade associations would also intervene.

However, he predicts that in a few years the blockchains built by these companies will most likely be abandoned when they “cause too big a headache from a technical point of view,” and after users choose to avoid them because they aren’t attractive enough from a “DeFi/self-custody/control-my-asset point of view.”

In the film, this is an argument based on moral intuition alone, without a principled basis and defended only by tautology. None of the ideas’ advocates make the normative case for why code should be law, but there must be an instrumental basis for this philosophy beyond moralism.

The Bitcoiner went on, though, to lambast Dorsey for his investments in Ocean, a Bitcoin mining pool that previously caught heat for discouraging the processing of non-financial transactions on the Bitcoin blockchain, including the creation of NFT-like Ordinals.

What really changes?
