"SearchGPT is about search and is separate from training OpenAI's generative AI foundation models," OpenAI said. "Sites can be surfaced in search results even if they opt out of generative AI training."

"This helps us understand friction points and opportunities, and keeps us close to the edge of what's possible," the announcement reads.

Operationally, risks such as validator performance, slashing events and downtime persist. Balancing liquidity with staking lock-ups and ensuring fair, transparent distribution of rewards among shareholders adds further complexity to fund management.

Chen Zhi is the founder and chairman of Prince Holding Group, a multinational business conglomerate based in Cambodia. The Department of Justice has alleged that Prince Holding is at the center of a global crypto scam operation involving forced labor and billions of dollars in victims' losses.

This matters because markets don't move in straight lines. BNB's 6% daily gain and 21% weekly surge attract short-term traders looking for quick flips. Once momentum stalls—and it always stalls eventually—those traders rush for exits simultaneously, creating violent corrections that wipe out leveraged positions in minutes.
