The results could be sending a complex signal to Wall Street, as the two frontrunners represent two vastly different potential futures for artificial intelligence in finance. DeepSeek is reportedly backed by a Chinese quantitative hedge fund, suggesting its success may stem from specialized financial data and expert fine-tuning—an evolutionary step for today's data-driven firms.

Uniswap added support for the Solana network to its web app, allowing Solana users to link their wallet and trade Solana-based tokens alongside those from other networks.

To lead the initiative, the company appointed Jeffrey Thomas as senior vice president of AI data centers, CleanSpark announced on Monday.

"For too long, money has been stuck in slow, outdated payment systems and infrastructure, causing unnecessary delays, high costs, and roadblocks to entering new markets — problems that blockchain technologies are ideally suited to solve."
