SpaceX's Bitcoin holdings have received increased attention as the aerospace company faces growing political and financial pressure.

This matters because markets don't move in straight lines. BNB's 6% daily gain and 21% weekly surge attract short-term traders looking for quick flips. Once momentum stalls—and it always stalls eventually—those traders rush for exits simultaneously, creating violent corrections that wipe out leveraged positions in minutes.

ReversingLabs says the malicious packages attempted to overwrite legitimate commands in order to extract sensitive database files.

In the U.S., the GENIUS Act tried to mitigate the risk stablecoins could pose to banks by blocking issuers from offering yield. But that hasn't stopped other companies from creating incentives for stablecoin holders.

The product features institutional-grade security protocols, with Coinbase transferring Bitcoin from trading wallets into segregated, offline cold storage by day's end.

Bitcoin this year has surged off the back of pro-crypto President Trump's election win and subsequent inauguration. Since taking office, the Republican, who campaigned on a ticket to help the industry, has pushed digital asset-friendly policies, including plans for a strategic Bitcoin reserve.
