Lee stated that many DATs are trading below their net asset value (NAV), or the worth of their underlying crypto holdings. “If that’s not already a bubble burst... How would that bubble burst?” he told Fortune on Thursday.

Grayscale has played a central role in the institutionalization of crypto. Founded in 2013, it has grown into one of the world’s largest digital asset investment platforms, managing over \$35 billion in assets. It has now launched staking-enabled products that bring blockchain yield mechanics into Wall Street’s traditional framework.
