“Blockchain and other innovative technologies can counter these emerging risks. Treasury and other policymakers should promote their use to identify and deter illicit activity.”

Indeed, a simple, repeatable rule can act both as a policy signal and as an operational habit for long-term accumulation.

Earlier this week, BTC attempted to find support around \$110,000, buoyed by steady spot demand from US investors. The Coinbase premium even spiked to 0.18, its highest reading since March 2024.

“These protections have already proven to be successful in addressing other types of non-consensual imagery, and we’ve now built the same capabilities for fake explicit images as well,” Google said. “These efforts are designed to give people added peace of mind, especially if they’re concerned about similar content about them popping up in the future.”

“This doesn’t mean the end of alt season,” said Gregory, though he issued a note of caution. While a rotation into altcoins is still on the table, Gregory believes that Bitcoin’s declining bullish momentum may lead to a “bear trap that could flush out more leverage” before the market resumes its ascent.

The split extended to how candidates viewed blockchain technology versus direct crypto investment.
