Approved by the SEC last year, the ETFs allow traditional investors and even institutions to buy exposure to the cryptocurrencies via funds that trade on stock exchanges.

The index combines three components to capture overall market psychology: the Fear & Greed Index (reflecting macro mood and volatility), CoinGecko's up/down votes (reflecting retail sentiment) and a rolling normalization layer that aligns both in a one-year window.

However, the stiff penalties have not stopped crypto advertisements in the country, according to the Financial Times.

The pattern reflects sustained investor confidence amid geopolitical and monetary uncertainty, the very conditions HSBC says will keep the rally alive into 2026.

Cross-border payment is one of the important application scenarios of blockchain technology. The traditional cross-border payment process is complex, involving multiple intermediaries, with long settlement time and high fees. In contrast, cross-border payments based on blockchain technology can realize direct peer-to-peer transactions, greatly simplifying the process, shortening settlement time, and reducing costs. Currently, several countries and financial institutions have begun to try using blockchain technology for cross-border payments. With the continuous maturity of technology and the improvement of regulatory frameworks, blockchain cross-border payments are expected to become the mainstream cross-border payment method in the future.

House of Doge telegraphed its deeper move into sports, telling Decrypt last week that it intends to tokenize multiple elements of mainstream culture, starting with sports.
