Flag and pennant patterns form after sharp price moves. Flags appear as small, parallel channels, while pennants look like compact triangles. Both signal brief pauses before the prevailing trend continues.

Stock correlation hints at Bitcoin's next move

The 2001 business cycle downturn, also known as the “dot-com bubble,” saw increasing unemployment and a 50% fall in the US stock markets (S&P; 500) over two years. It was triggered by the collapse of overvalued tech companies and excessive speculation.

Cross-border payment is one of the important application scenarios of blockchain technology. The traditional cross-border payment process is complex, involving multiple intermediaries, with long settlement time and high fees. In contrast, cross-border payments based on blockchain technology can realize direct peer-to-peer transactions, greatly simplifying the process, shortening settlement time, and reducing costs. Currently, several countries and financial institutions have begun to try using blockchain technology for cross-border payments. With the continuous maturity of technology and the improvement of regulatory frameworks, blockchain cross-border payments are expected to become the mainstream cross-border payment method in the future.

The most significant breakthroughs in DeFi happened because anyone could plug into anyone else's contracts without asking permission. That's harder to do in a corporate-controlled L1 with guardrails. If you can offer true composability, you'll attract the builders they can't.

It added that there was a “meaningful divergence” of opinion regarding where we are in the market cycle, with 45% of institutions believing markets are in the late stages of the bull run, compared to just 27% of non-institutions.
