Following the ICO crash of early 2018, Bitcoin and the cryptocurrency industry entered what's now known as the first crypto winter, as liquidity dried up and funding slowed down. Many crypto firms had to downsize or shut down.

The company's board of directors approved the plan, which will see it acquire up to \$5 million of the two assets in total over the next year, according to a company announcement on Thursday.

The researchers say the rogue coders responsible also joined a discussion on GitHub and lobbied for their libraries to be run, but other developers correctly recognized it was a scam.

The letters, known as “nudge letters,” are designed to prompt investors to voluntarily correct their tax filings before formal investigations are launched.

California state pension fund CalPERS recorded mixed reactions from board candidates on crypto investments during Wednesday's forum, despite the system holding shares in Bitcoin treasury company Strategy, previously known as MicroStrategy.

Etherscan is a blockchain explorer designed for the Ethereum ecosystem. It's widely used by individuals, developers and institutions to verify transactions, monitor smart contracts and analyze token activity. Its reliability and extensive onchain data make it one of the most trusted tools for tracking Ethereum network activity.
