In other words, the slight price bump is not being driven by aggressive buying. Instead, the move coincides with more passive buying.

Admit it or not, software is deployed by developers and used by communities for certain purposes. And when hackers at cross purposes exploit the software to take things from those communities, some of the victims will appeal to the government for help. And sometimes those governments will respond by sending men with guns to restrain the hackers and imprison them.

“If Bitcoin can loosen its correlation with US equities [amid] the tense geopolitical backdrop, particularly if gold flows decelerate, perhaps this is the trade after the trade,” said venture investor Joe Consorti.
