"The elephant in the room is are DATs really justified?" Chu questioned, noting "without a credible business case, rigorous governance, robust custody, and transparent risk controls, such DAT structures can become misaligned with shareholder interests and could invite the kind of liquidity and governance risks regulators worry about."

Bitcoin was recently trading for \$111,985 per coin, according to CoinGecko data, unmoved over 24 hours. The coin has also barely budged over a seven-day period, but it hit a new high of \$124,128 in August.

The turning point: Regulatory and market shifts
