Quantum computers are not yet powerful enough to crack encryption standards, according to Mental Outlaw, a pseudonymous YouTuber who covers technology.

"It remains unclear how the Bitcoin came to be in U.S. custody," on-chain intelligence firm Elliptic recently concluded. "It's also unclear who 'stole' the bitcoins from Chen/LuBian or whether a theft really took place."

difference between binance and binance smart chain

Together, they account for about a quarter of the country's \$4.3 trillion (US\$2.8 trillion) superannuation pool, according to data released by the Australian Prudential Regulation Authority last week.

When you've been around markets long enough, you start to see patterns. The tools we trade on and the rails we build on are never static. In crypto, one of the biggest shifts happening right now is at the base layer.

Australians appear to be trading on curiosity and culture as much as conviction, according to a new analysis by crypto exchange Kraken.
