the bear cross occurred were followed by significant ETH price drops.

House of Doge was founded earlier this year to help grow mainstream awareness and adoption of the world's biggest meme coin. Since that time, the firm has collaborated with publicly traded CleanCore on a DOGE treasury chaired by Alex Spiro, the personal lawyer of DOGE-friendly billionaire entrepreneur, Elon Musk.

OKLink is a professional-grade, multichain blockchain explorer developed under the OKG Technology Group. It supports major blockchains such as Ethereum and Bitcoin, offering robust tools for transaction tracking, stablecoin monitoring and onchain risk analysis. Known for its strong compliance and Anti-Money Laundering (AML) features, OKLink is widely used by analysts, compliance teams and institutions that require deeper blockchain visibility beyond basic transaction searches.
