patterns, which signal that a current trend may change direction, and continuation patterns, which suggest the trend will likely resume after a brief pause. They stem from market psychology, where emotions like fear, greed and uncertainty drive collective trading behavior and create recognizable shapes on charts.

DAT bubble bursting?

Before livestreaming was a native feature on the platform, a Miami dev called Mikol doused himself in isopropyl alcohol and had fireworks shot at him. He instantly went up in flames, dropping to the floor as his friends struggled to put the fire out. Mikol was then rushed to the hospital with third-degree burns across a large portion of his body.
