Net Asset Values (NAVs) in digital asset treasuries (DATs) have collapsed, but this is not as bad as it sounds and can be viewed as an opportunity for savvy investors, according to 10x Research.

does binance need verification

Lee told CNBC after the trading day on Friday that investors were still “licking their wounds” from the record leverage flush, but there was also a bit of “gold envy” as the commodity has been a “huge performer this year.”

OKLink is a professional-grade, multichain blockchain explorer developed under the OKG Technology Group. It supports major blockchains such as Ethereum and Bitcoin, offering robust tools for transaction tracking, stablecoin monitoring and onchain risk analysis. Known for its strong compliance and Anti-Money Laundering (AML) features, OKLink is widely used by analysts, compliance teams and institutions that require deeper blockchain visibility beyond basic transaction searches.

Crypto community divided on Stripe's Tempo blockchain
