Stripe isn't doing this for no reason. This is a settlement-layer play, with control over the base layer, the fees and uptime.

The primary struggle for a crypto investor is not a lack of information but a relentless deluge of it. News websites, social media feeds and onchain data streams constantly churn with updates that can be overwhelming. XAI's Grok 4 aims to change that. It pulls live data straight from X, pairs it with real-time analysis and filters signals from noise. For a market that is heavily influenced by narrative momentum and community chatter, this is indeed a notable capability.

Google's newly released AI-powered search results are garnering lots of attention—for the wrong reasons. After the tech behemoth announced a host of new AI-powered tools last week as part of a new "Gemini Era," its trademark web search results changed significantly, with natural language answers to questions displayed above websites. "In the past year, we've answered billions of queries as part of the search-generated experience," Google CEO Sundar Pichai told the audience. "People are using it..."

Net Asset Values (NAVs) in digital asset treasuries (DATs) have collapsed, but this is not as bad as it sounds and can be viewed as an opportunity for savvy investors, according to 10x Research.
