monitor smart contracts and analyze token activity. Its reliability and extensive onchain data make it one of the most trusted tools for tracking Ethereum network activity.

"The shift is driven by the convenience and significant tax benefits offered by ETFs, as well as the ability for major investors to manage their wealth through existing financial advisers and access broader investment/lending services," Hiesboeck said.

"Crypto is now an alternative currency that has its supply limited, so, all things being equal, if the supply of dollar money rises and/or the demand for it falls, that would likely make crypto an attractive alternative currency," he said.

"At this point, it's too early to tell whether the demand for HPC will meet lofty expectations," he wrote. "We remain focused on infrastructure that keeps bitcoin mining competitive, helping clients secure power-ready sites, interconnection, and long-duration energy, with the flexibility to repurpose assets for HPC if and when demand matures."
