While we abstract it away in our discussions, this final step, the violence, is the basic quantum of all regulation. And as long as governments have armies, and developers and hackers do not, those who believe code is law will be unable to

enforce their priors on the rest of us.

A repeatable pre-screen process forces discipline: You filter out hype-only tokens, highlight projects with verifiable fundamentals and cut down the time wasted chasing every rumor.

The company's board of directors approved the plan, which will see it acquire up to \$5 million of the two assets in total over the next year, according to a company announcement on Thursday.
