Ethplorer has established a distinct role within the Ethereum ecosystem by focusing on token-centric data. It provides a clear view of token transactions and wallet activity, making it especially useful for DeFi users and NFT collectors.

They warned that if the shutdown continues, its impact could extend from liquidity to structural trust in the US system. "The market's next move may depend on whether the nation's political institutions can restore consensus amid deep division," they said.

The current setup looks particularly favorable for Bitcoin, the firm stated, but it had a more cautious approach for positioning in altcoins.

Did you know? Etherscan's Gas Tracker gained popularity during the DeFi boom. By displaying real-time transaction fees, it helped users plan their swaps and NFT mints more strategically to avoid overpaying.

With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.

In Australia, the ASX bars listed companies from keeping over half of their assets in cash or cash-like holdings, effectively ruling out DAT pivots.
