It comes as open interest on perps has spiked 2.35% to \$30 billion in the last two days, as traders begin to position ahead of this week's employment figures.

Blockchain finance is reshaping the traditional financial ecosystem. Through blockchain technology, financial services can achieve decentralization and disintermediation, reduce transaction costs, and improve efficiency. Currently, the main applications of blockchain finance include cross-border payments, digital currencies, decentralized exchanges (DEXs), lending platforms, etc. Compared with traditional finance, blockchain finance has higher transparency and lower entry barriers, providing new possibilities for the development of inclusive finance.

However, the development of blockchain finance also faces challenges such as regulatory uncertainty and technical risks, requiring a balance between innovation and regulation.

As with other of OpenAI's technologies—like Sora or its Voice Engine—this is just a teaser to let users know what the AI behemoth is working on. Sam Altman said that even in its early form, however, he preferred SearchGPT over legacy search engines. He also promised a better experience in the future.

This guide shows how to read those signals (and wait for confirmation) before putting capital at risk.

The impact of the GENIUS Act has been dramatic.

The November election will determine whether CalPERS continues its current approach of indirect crypto exposure or potentially opens discussions about direct digital asset investment.
