Practical Studies for Cornet and Trumpet Book 2 by Nilo W. Hovey is a copyright material previewed on Sheet Music Plus. This book is available for review and purchase, with an ISBN of 9780769221960 and UPC: 029156030075. It serves as the second book in a series designed to build upon techniques introduced in the first volume, while introducing new challenges for intermediate students. The goal is to develop general musicianship and style interpretation, providing a solid foundation for solo literature. You need to see the cloud image, but it's not accessible at the moment.
