We do this by enabling people to apply Professional Scrum through training courses, certifications and ongoing learning all based on a common competency model. Our courses provide a hands-on learning experience led by Professional Scrum Trainers (PSTs) who are experienced practitioners, vetted for their knowledge and teaching ability and go through additional training before they can teach each course. All courses are maintained by course Stewards who work with the 340+ PST community members to leverage their collective expertise. Each PST brings their own real-world experience into the classroom while using a consistent set of learning materials.
