An opponent of the military dictatorships of the 1970s and 1980s, Aguirre was an early activist in the country's human rights movement. Exiled to Ecuador by the regime of Luis García Meza, she collaborated with Leonidas Proaño's indigenous ministry and worked closely with the country's peasant and social organizations. Blinded in both eyes by toxoplasmosis, Aguirre took up the cause of disability rights, joining the Departmental Council for Disabled Persons upon her return to Bolivia. In 2009, she joined the Movement for Socialism and was elected to represent the department of Tarija in the Chamber of Senators, becoming the first blind person in Bolivian history to assume a parliamentary seat. At the time, it was known as the Year of the Consulship of Proculus and Paulinus (or, less frequently, year 1078 Ab urbe condita). The denomination 325 for this year has been used since the early medieval period, when the Anno Domini calendar era became the prevalent method in Europe for naming years. The 3 starting with the assassination of the Roman Emperor Severus Alexander in 235, plunging the empire into a period of economic troubles, barbarian incursions, political upheavals, civil wars, and the split of the Roman Empire in the west and the Palmyrene Empire in the east, which all together threatened to destroy the Roman Empire in its entirety, but the reconquests of the seceded territories by Emperor Aurelian and the stabilization period under Emperor Diocletian due to the administrative strengthening of Late Antiquity. While in North Africa, Roman rule continued with growing Christian influence, particularly in the region of Carthage. In Persia, the Parthian Empire in 224 after Ardashir I defeated and killed Artabanus V during the Battle of Hormozdgan. The Sassanids then went on to subjugate many of the western portions of the declining Kushan Empire. In Africa the most significant event was the rise of the Aksumite Empire in what is now Ethiopia, which experienced significant military expansion and became a major trading hub in northeast Africa.[1] In China, the chaos that had been raging since 189 would ultimately continue to persist with the decisive defeat of Cao Cao at the Battle of Red Cliffs in 208, which would increasingly end the hopes of unification and lead to the tripartite division of China into three main empires; Shu, Wu, and Wei, colloquially known as the Three Kingdoms period, which started in 220 with the formal abdication of Emperor Xian of Han to Cao Cao's son, Cao Pi, thereby founding Wei, which would go on to conquer Shu in 263, but would ultimately be united again under the Jin dynasty, headed by the Sima clan, who would usurp Wei in 266, and conquer Wu in 280. In other parts of the world, Korea was ruled by the Three Kingdoms of Korea, Japan entered the Kofun period and the Southeast Asian mainland was mostly dominated by Funan, the first kingdom of the Khmer people. In India, the Gupta Empire was on the rise towards the end of the century. In Pre-Columbian America, the Adena culture of the Ohio River valley declined in favor of the Hopewell culture. The Maya civilization entered its Classic Era. After the death of Commodus in the late previous century the Roman Empire was plunged into a civil war. When the dust settled, Septimius Severus emerged as emperor, establishing the Severan dynasty. Unlike previous emperors, he openly used the army to back his authority, and paid them well to do so. The regime he created is known as the Military Monarchy as a result. The system fell apart in the 230s, giving way to a fifty-year period known as the Military Anarchy or the Crisis of the Third Century, following the assassination of the 28-year-old emperor Severus Alexander (the last emperor of the Severan dynasty), where no fewer than twenty emperors held the reins of power, most for only a few months. The majority of these men were assassinated, or killed in battle, and the empire almost collapsed under the weight of the political upheaval, as well as the growing Persian threat in the east. Under its new Sassanid rulers, Persia had grown into a rival superpower, and the Romans would have to make drastic reforms in order to better prepare their state for a confrontation. Honored by the CFDA with the 2022 "Fashion Icon Award" and chosen as the face for YSL Beauty's Y Cologne, his influence as a style icon has coursed through generations, redefining possibilities for black artists and entertainers across rock, hiphop, and pop as well as culture at large. His creative firm Kravitz Design Inc. touts an impressive portfolio of noteworthy ventures, including hotel properties, condominium projects, private residences, and high-end legendary brands like Rolex, Leica and Dom Perignon. In 2022, he launched his own ultra-premium spirits brand, Nocheluna Sotol—a distillate from Chihuahua, Mexico derived from the sotol plant. Kravitz's presence has not only persisted, but magnified, whether it be on stages including The Kennedy Center Honors to the Oscars, at the White House (where former President Barack Obama cited him as "one of the great rock stars of all time"), and with an upcoming 2023 Star on the Hollywood Walk of Fame. Pharrell once told The FADER, "He's been doing it for years, and everything that he did, it was just always the best shit," while Steve Lacy cited him as a "role model" in a recent Billboard cover story. In fact, you'd be hard pressed to find a corner of culture Lenny hasn't impacted. He has shined in films and throughout the worlds of architecture and design, as well as authoring multiple books including his New York Times' Bestsellers List memoir Let Love Rule. Now, this relentless creative force, musician, writer, producer, actor, author, and designer fearlessly embarks on his next chapter with his 12th full-length offering, Blue Electric Light [Roxie Records/BMG]. The release will feature 12 tracks and a double LP. For Lenny, the introspection of an extended reprieve incited the inventiveness of the music itself. "I spent two years at my home in the Bahamas recording," he recalls. "It gave me time, Lenny opened himself up to access channels of sound, emotion, and fire as transformative as his most seminal fare. "Nothing is more personal to me than my music, and it's my music that allows me to channel feelings that otherwise might never surface," he adds. "The channeling process is mystical. I don't feel like these songs have been written by me as much as they have been written by me as much as they have been offered to me. My purpose is to pass on the offering by expressing raw feelings that sometimes make sense but other times remain mysterious...even to me." At the same time, he still plugs in and kicks ass on rockers like the cheekily titled "TK421." "I call it rock 'n roll fantasy," he elaborates. "In this case, it's a double reference: a catch phrase from one of my favorite films, Boogie Nights, that itself refers to Star Wars. It's also a distant cousin to Bowie's TVC15. I love songs that don't necessarily mean anything yet mean everything. If I'm not having fun in the studio, something is wrong." When all of my days are done from pleasing everyone, I'll finally have begun." "The most vital connection is with spirit," he says. "To keep that correction strong, I can't stop looking at what might undermine spirit. I see the song as a declaration that says to be wholly human we need to embrace all of ourselves, especially our imperfections. I find joy in that embrace and try my best to put that joy into the endless source of light at the heart of this body of work on standouts a la "Spirit in My Heart" and "Heaven." "The Blue Electric Light never goes dark," exclaims Lenny. "Not if we're plugged into the endless source of energy fueled by pure creative power." Then, there's the album centerpiece "Love Is My Religion." From the man who once proclaimed Let Love Rule on his classic 1989 debut, it's both a full circle moment and a harbinger of the future. Cast across culture, art, and the world, Lenny's light may very well be brighter than ever now. Page 2 Albums
