Each Unisa qualification is structured in such a way that you need to pass a certain number of Modules of 12 credits (a Modules of 12 credits each) in
your first year of study; At least 48 NQF credits (4 Modules of 12 credits each) in your second or further years of study. You may not register for more than the allowed maximum number of credits (10 Modules of 12 credits each) in a semester; At least 48 NQF credits (20 Modules of 12 credits each) in your second or further years of study. You may not register for more than the allowed maximum number of credits (10 Modules of 12 credits each) per
year for year Modules. The maximum number of credits do not include supplementary and/or aegrotat examinations from a previous semester. Modules taken for non-degree/non-diploma purposes also count towards the maximum number of credits allowed. You must take your available time into consideration when choosing your Modules, as this will
 impact your academic performance. You need approximately: 6 to 8 hours per week for semester Modules African politics Course Modules Afrikaans Course

 needs of South Africans looking for flexible learning options. One of the most common questions potential students ask is, "How many modules do I need to complete for a degree at Unisa?" Unlike traditional universities with semester-based coursework, Unisa uses a credit system. Each qualification requires you to accumulate a specific number of
 National Qualifications Framework (NQF) level credits within a set timeframe to graduate. There's no fixed number of modules for all degrees, it depends on the program you choose. This should help you understand how credit translates to modules for all degrees, it depends on the program you choose. This should help you understand how credit translates to modules for all degrees, it depends on the program you choose.
 example, requires 120 credits, which can be completed with 10 modules of 12 credits each. Some qualifications may have modules with varying credit values. Year modules at Unisa span the entire academic year, as opposed to semester modules. While
the average number of hours dedicated to studying per week is believed to be 4 to 6 hours, Unisa provides a guideline: A 12-credit module, which is the standard for undergraduate programs, is considered to require 120 notional learning hours. This translates to roughly 8 hours of study per week over a 15-week semester. Yes, you can register for a
minimum of two modules per semester at Unisa. But keep in mind that there's a maximum number of credits you can register for in a semester to ensure a manageable workload and successful completion of your degree. Unisa
 allows you to register for multiple qualifications simultaneously. However, there are restrictions: The workload of the combined degrees should be manageable within the allowed credit limits per semester. Some qualifications may have prerequisites that need to be completed before enrolling in another degree. It's important to carefully consider your
time commitment and academic capabilities before attempting to juggle two degrees. Assessment methods at Unisa vary depending on the module. Year modules may include a combination of: Formal examinations: These are year-end written exams held at designated Unisa centers across South Africa. Assignments: Throughout the year, you may be
required to submit assignments based on the learning materials provided. Projects: Some modules may involve research projects or practical tasks to demonstrate your understanding of the subject matter. The specific assessment methods for each module will be outlined in the Unisa study guide provided for the module. Join Our WhatsApp Channel
 Like us on Facebook Can I Register 12 Modules Per Semester At Unisa For 2025: Modules at Unisa for a formal qualification, as well as returning students who wish to change qualification or
stream/specialization must apply for admission and receive confirmation of admission approved, for the qualification applied for, before registeration. Per the rules of Unisa, A student may be allowed to register for a maximum of two modules for non-degree purposes while registered for a formal undergraduate diploma or degree qualification that has
a minimum duration of one or two years. A student may not register for a module for which he or she has not passed the pre-requisite module/s. U READ: UNISA Online Applications 2025-2026 Unisa Modules 2025: Can I register 15 modules at Unisa The number of notional study hours necessary to achieve the learning outcomes is expressed in
 credits. Study time, assignments, and exams are all included in the fictitious hours. One credit sequal to ten notional hours in the credit rating system. Higher Certificate: has 120 credits equates to 120 notional hours. It, therefore, requires at least 8 hours of study per week in a
 15-week semester. At Unisa, undergraduate modules of 12 credits, for example, consists of 30 modules of 12 credits, for example, consists of 30 modules of 12 credits each at NQF level 5 between 10 and 12 modules
 of 12 credits each at NQF level 6 10 modules of 12 credits each at NQF level 7 These levels follow on from one another. When choosing a module, you must first have passed the module at the lower level. Before you can be awarded a qualification, you must first have passed the modules of 12 credits. The modules of 12 credits each at NQF level 7 These levels follow on from one another.
 required NQF level. How much do I need to pass a module? How To Chose A Module Per Semester At Unisa qualification is structured in such a way that you need to pass a minimum number of credits/modules annually so that you can re-register and continue with
your qualification: A student's registration per semester and annum is subject to the maximum number of NQF (National Qualifications Framework) credits as set out in the Admission Policy. Modules registered for non-degree purposes will also be taken into account when calculating the maximum NQF credits for a semester/year of study. Students in
 the final semester of study for a qualification weighted at 120 credits or more may apply to register for an additional 24 credits if this will enable the student to complete the registered qualification weighted at 120 credits or more may apply to register for an additional modules must be made to the Deputy Registrar using the Unisa prescribed form. To be eligible for the application of this
rule, the affected student must have a minimum overall average of 55% in all modules previously passed. Where the final year of a qualification comprises only year modules (as opposed to semester modules), the above rule will apply; application for the final year of study. A students
may register for two modules for a postgraduate qualification for NDP concurrently with one outstanding minor or major module for the degree. The outstanding module for the degree. The outstanding minor or major module for the degree. The outstanding module for the major subject required for admission to the postgraduate qualification except CTA. NDP modules for a postgraduate qualification will be cancelled in June
of the academic year if a student fails to pass the outstanding module for the undergraduate qualification. Such a student will forfeit the initial amount paid at the time of registration. The maximum number of credits does not include supplementary and/or aegrotat examinations from a previous semester. Modules taken for non-degree/non-diploma
 purposes also count towards the maximum number of credits allowed. How to register a failed modules, as this will impact your available time when choosing your modules, as this will impact your academic performance. You need approximately: 6 to 8 hours per week for semester modules, as this will impact your available time when choosing your modules, as this will impact your academic performance. You need approximately: 6 to 8 hours per week for semester modules, as this will impact your academic performance.

 and Mobi formats. Unisa website () The myUnisa (Fax enquiries to 012 429 4150 Before applying, please check whether you meet the statutory and college-specific admission requirements, and the required academic points score (APS) for your chosen qualification(s). The minimum APS score differs from college to college, and
from qualification to qualification. I hope this post has been of help to you. Visit Unisa's official website for more details. RELATED LINKS As you're likely eager to complete your studies as efficiently as possible, one question that might be on your mind is how many modules can you take in your final year at Unisa. Let's find out. The maximum
number of modules you can register for in a year at Unisa is 10. This translates to a total of 120 credits. Unisa uses a credit system, where each module typically carries 12 credits. So, 10 modules would equate to 120 credits. Unisa uses a credit system, where each module typically carries 12 credits. Unisa uses a credit system, where each module typically carries 12 credits.
  taking fewer modules would be a better option for you, such as the difficulty level of the modules or your personal workload commitments. There are limited exception is if your final year consists solely of year modules. Year modules cover the entire
 academic year, unlike semester modules which are completed in a single semester. In such cases, Unisa allows students to apply for permission to take these
 additional modules before the closing date for year module registrations. If you're nearing the end of your degree and only require a few credits to graduate, you might be eligible for Unisa's Policy to Assist Students Who Have One or Two Modules Outstanding to Complete a Qualification (FI concessions). This policy allows students to register for the
 remaining modules needed to complete their qualification, even if it exceeds the standard credit limit. To be eligible for FI concessions, you must meet specific criteria, such as having achieved a minimum mark (usually 30%) in the outstanding module(s). I recommend that you consult the Unisa Student Administration department for detailed
information and eligibility requirements for FI concessions. The ideal number of modules for your final year depends on several factors, including: The difficulty level of the modules require a lot more time investment than others. Consider the workload associated with each module before finalizing your registration. Your personal
  workload commitments: If you have work or family commitments alongside your studies, taking fewer modules might be a more focused approach. Your learning style: Some students thrive with a heavier course load, while others prefer a more focused approach. Your learning style: Some students thrive with a heavier course load, while others prefer a more focused approach. It's wise to consult your academic advisor to discuss your specific circumstances and
 determine the most suitable number of modules for your final year. Effective time management is very important for success in your final year at Unisa. Create a study schedule that allocates sufficient time for each module, considering assignments, exams, and self-study. Use Unisa's online resources and support services to increase your learning
 potential. Join Our WhatsApp Channel Like us on Facebook As a student approaching your final year at the University of South Africa (UNISA), it's essential to plan your academic workload carefully. One of the most significant decisions you'll make is determining how many modules to take during your final year. UNISA has established specific rules
 regarding module enrollment to ensure students can manage their workload effectively. According to UNISA's regulations, students are allowed to enroll for a maximum of four modules per semester. However, this limit can be exceeded under exceptional circumstances, provided you obtain permission from the relevant department. It's essential to
 note that UNISA's module enrollment rules and regulations are subject to change, and it's your responsibility as a student to stay informed about any updates or amendments. You can access the latest information on UNISA's website or by contacting the university's student administration department. When deciding how many modules to take in
your final year, it's essential to consider your academic workload and module selection. You should choose modules that align with your academic goals and career aspirations. It's also important to consider the complexity and credit value, ranging from 12 to 24 credits per module. More
complex modules, such as research-based modules, typically carry a higher credit value. When selecting modules with varying credit values and complexity levels. Assessing your academic readiness for a heavy workload is essential when deciding how many modules to take in your
 final year. This involves evaluating your academic performance in previous years, as well as your ability to manage multiple modules simultaneously, you may be able to handle a heavier workload in your final year. However, if you've
 struggled with your coursework or have had difficulty managing your time effectively, it may be wise to take on a lighter workload. Effective time management and study commitment are essential when taking multiple modules in your final year. It's crucial to create a study schedule that allows you to allocate sufficient time for each module. UNISA
recommends that students allocate at least 10 hours of study time per week for a 12-credit module. This means that if you're taking four modules, you'll need to allocate at least 40 hours of study time per week. To manage your time effectively, it's essential to prioritize your tasks, set realistic goals, and avoid procrastination. You should also make use
of UNISA's online resources, such as the myUnisa platform, to access your study materials, submit assignments, and track your progress. If you're unsure about how many modules to take in your final year or need guidance on creating a study schedule, UNISA offers various support services to help. The university's academic advisors can provide
personalized guidance on module selection and study planning. Additionally, UNISA's online support resources, such as the myUnisa platform and the university's website, offer a wealth of information on module enrollment, study planning, and time management. You can also contact UNISA's student administration department for assistance with
 module enrollment and other administrative tasks. Apply for admission Credits are the number of notional study hours required for achieving the learning outcomes. Notional hours as equivalent to one credit. For example: A Higher Certificate has 120
credits consisting of a 10 x 12 credit module. A module consisting of 12 credits equates to 120 notional hours. It therefore requires at least 8 hours of study per week in a 15-week semester. Qualifications require a certain number of credits, broken down into smaller units. At Unisa, undergraduate modules are usually 12 credits. Each module is
 pegged according to a specific NQF level. A bachelor's degree may consist of 12 credits each at NQF level 5 between 10 and 12 modules of 12 credits each at NQF level 7 an additional
  10 modules of 12 credits each at NQF level 7 or 8 for 4-year qualifications. These levels follow on from one another. When choosing a module, you must first have passed the module at the lower level. Before you can be awarded a qualification, you must first have passed the module at the lower level.

Certificate in ABET (98615)UNISA has also made transitional arrangements and changes in some courses, as shared on the school's website. What are the UNISA teaching qualifications? An Information Technology degree is NQF level 7; its total credits are
360.When are the old B.Ed. degree qualifications phasing out? Students currently enrolled in the old B.Ed. degree? Students can remain in the old program or transfer to the new one. Each student registered under the old
program will receive assistance in making an informed decision. Do you lose any credits if you remain in the old PGCE qualifications
   phasing out?Students enrolled in the old PGCE qualifications had until 2022 to complete or meet any outstanding requirements, such as modules registered for Non-Degree Purposes (NDP). Are UNISA qualifications internationally recognized? UNISA is internationally recognized? UNISA is internationally recognized, and so are the credits for all the qualifications the university offers.
  What was the UNISA qualifications scandal?In July 2024, UNISA slammed A.I. exam cheating reports. News had it that hundreds of examination papers had been marked as "disciplinary cases" after students allegedly used banned A.I. tools. UNISA qualifications are well structured with essential modules that ensure the learner gets the best
 education and becomes a competitive professional. This detailed guide prepares you for your studies. Happy learning! Briefly.co.za also listed universities with low entry requirements in South Africa. These are the minimum APS points you need to be accepted into a degree program in South Africa. Many universities use your APS scores to determine
if you know the basics of the course you want. So they can let you skip introductory courses required in your major or core courses that all students must take. Source: Briefly News How Many Modules Can You Register For At Unisa? Registration at Unisa? Registration at Unisa 2025 Unisa is currently open for registration into the 2025 academic year for undergraduate,
 postgraduate and honours, doctorate and master's qualification for which you have applied. You may register for a maximum of
 two qualifications during the application process. You may want to consider applying for a lower-level qualification as your second choice. Per the rules of Unisa, A student may be allowed to register for a maximum of two modules for non-degree purposes while registered for a maximum of two modules for non-degree purposes while register for a maximum of two modules for non-degree purposes while registered for a maximum of two modules for non-degree purposes.
duration of one or two years, however, You cannot register for more than 10 modules (60 credits) in an academic year, and you cannot register for modules without passing their prerequisites. Applicants (new applicants who applied for admission to a new qualification) may only
register if they have received an offer of placement from Unisa and have accepted the offer online. Once you've received confirmation of your register for At
