## Quiz questions and answers multiple choice

During the pandemic, my cousins and I became obsessed with trivia. We played it at least weekly on the Nintendo Switch, on JackboxTV, via board games like Trivial Pursuit, and even went as far as to seek out and join random local Facebook events that happened to be hosting Trivia Nights! Because of how fun and educational trivia questions are, I've compiled a post with some of my favorite trivia questions and answers out there. Whether you're looking for trivia questions to play at home with family or on the road to pass the time away, you can use these random multiple-choice trivia questions to keep you entertained. And educated! This post may contain affiliate links. You won't be paying a cent more, but in the event of a sale, the small affiliate commission I receive will help keep this blog running/pumping out useful and free content. Thanks a lot!
