

Defunct car assembly company in AngolaAncarFounded2001(2001)FoundersHelmuth SchusterJohn JohannsenDefunctc. 2005HeadquartersAngolaParentVolkswagen GroupAncar (Ancar Automveis de Angola, SA)[1] was a private company in Angola founded in 2001 to create a joint venture[clarification needed] with koda Auto and to establish a car assembly line in Angola. Ancar was regarded as the front company of Ancar World Wide Investments Holding, a company with dubious[how?] financial European capital, that was registered in the USA. Ancar Angola no longer exists and the project was ceased in both Angola and Germany. There were serious corruption allegations against company executives. The initiators of the project were former koda Auto board member Helmuth Schuster[2] and John Johannsen. At this time, the Spanish police had an arrest warrant out on Johannsen for serial cheating. Due to Schuster and Johannsen's dubious business practices, Norddeutscher Rundfunk in Germany broadcast a report about the Volkswagen corruption scandal on July 14, 2005.[3] According to this news, Volkswagen Group responded to allegations by dismissing one board member and stopping construction of a factory 24 kilometres (15mi) outside of Luanda. Volkswagen only continued further negotiations with Ancar until an extensive review of the company took place and then suspended the project. On June 28, 2008, however, Volkswagen announced in a press release their decision to continue construction works and to open the assembly factory in 2009. An investment of 15 million U.S. dollars, including the establishment of a nationwide dealer network, was planned too. According to the original plans that were in effect in the years 2001 to 2005, this factory would have been just an assembly operation, where cars disassembled in Lisbon, Portugal would be reassembled in Angola. [4] This method would have been created, which was supported by Angolan law.Due to complications that led up to the highest government circles, including a daughter of President Jos Eduardo dos Santos participating in Ancar, the Government of Angola made it publicly clear to distance itself from the case. Instead, on the designated factory site, a joint venture between the Polo Industrial de Viana, and the China International Fund called CSG - Automvel fabricado em Angola was established.[5] (as of 2011). At its launch in 2008, Volkswagen forecast 300,000 sales over a period of seven years. [10] The automaker expected that 60% of these sales (about 26,000 units per year) will come from the market of the United States. [10] In China, the CC was released by FAW-Volkswagen on July 15, 2010, and was available in 1.8TSI and 2.0TSI trims.[11]Compared to other midsize sedans in the marketplace, the 2013 Volkswagen CC was evaluated by Edmunds as "attractive and trunk may be deal-breakers ... [and] the sport tuned suspension is on the firm side."[12] Automotive journalists describe the CC sedan's ride as "nearly sports car firm, with every bump and undulation sent directly to your backside." [13]RearInteriorThe car has a 2,710mm (106.7in) wheelbase and was available with a 1.4L E85 TFSI (Finland and Sweden), 1.8L petrol inline four, a 2.0L inline four, a 2.0L inline four, a 2.0L inline four, a 2.0L inline four, a 2.710mm (106.7in) wheelbase and was available with a 3.6L VR6 engine producing 220kW (299PS; 295hp) with 4motion four-wheel drive and a six speed Direct-Shift Gearbox transmission. The North American market had the 2.0T I4 and 3.6L VR6 engine as options. This version of the VR6 engine produced 206kW (276hp) and 265lbft (359Nm) of torque in both front wheel drive and 4MOTION versions, while the 2.0T produced 200hp (149kW) and 207lbft (281Nm). Manual transmission was available in the 2.0T engine option only.[14] It also came with automatic transmission. On the European market, the CC was offered with 4MOTION four-wheel-drive on the 2.0L TDI engines. The 103kW (140PS) model came with manual transmission and the 125kW (170PS) model with Direct-Shift Gearbox (DSG). An AdBlue version offering 105kW (143PS) named BlueTDI was also produced. Availability varied by national markets. Wikimedia Commons has media related to Volkswagen Dassat CC.Volkswagen Passat CC.Volkswagen Pa accessing the VIN, you can find the exact paint color code used in your vehicle, whether its for exterior touch-ups or interior repairs. In this guide, we will walk you through the process of decoding the Volkswagen paint code, its location, and how you can apply it for accurate paint matching. The paint code for your Volkswagen is usually located in one of two places: inside the drivers side door frame or on the engine bay. The label or plate that holds the VIN often also contains the paint code, the next step is to use a reliable VIN decoder or a specialized Volkswagen paint code tool to get the exact color. Whether you're looking to touch up scratches, order touch-up paint, or simply want to know your car's exact color for resale or repairs, decoding the paint code by VIN is the most reliable method. Check your Volkswagens VIN here for detailed information. Volkswagen vehicles come in a range of colors, from bold, vibrant shades to subtle, elegant tones. Some common Volkswagen exterior color codes include 'Deep Black Pearl' (code: 0A9). For interiors, the most popular colors include 'Titan Black' and 'Cornsilk Beige'. Check the window sticker for more color-related details. Volkswagen interior colors typically cover a range of neutral tones that complement the car's exterior color. Exterior color codes, on the other hand, reflect the bold hues that define the car's exterior color. Exterior color synchrony both the interior and exterior color synchrony both the interior and exterior color. vehicle.Volkswagens paint codes are typically used not just for aesthetic matching, but also for ensuring that parts replaced during repair or restoration are properly painted to matching, but also for ensuring that parts replaced during repair or restoration are properly painted to matching. additional details on your vehicle. If you're planning to repair small chips or scratches on your Volkswagen, knowing the exact paint code is essential. With the correct code, you can order the perfect touch-up paint that matches your cars exact color. Find your Volkswagen touch-up paint that matches your cars exact color. insights about vehicle history, maintenance, and buying guidesExplore the best Carfax alternatives for vehicle history reports. Caldwell4/26/2025Car size classification in Europe2020 Best-SellingBMW 3 Series 7th generation (2018present)Volkswagen Passat 8th generation (20152024)The D-segment is the 4th category of the European segments for passenger cars, and is described as "large cars".[1][2] It is equivalent to the Euro NCAP "large family car" size class,[3] and the present-day definition of the mid-size car category used in North America.[4][5] Compact executive cars are part of the D-segment size category.D-segment sales represented about 7% of the market in the 2010s.[6][7]Most D-segment cars are sedans/saloons or wagons/estates but hatchbacks, and coupes have been common. Pricing and specification of D-segment cars can vary greatly, from basic low-cost transport to more luxurious and expensive models. As of 2021 the typical D-segment category size ranges from about 4.6 to 4.8m (15.1 to 15.7ft).D-segment cars in Europe are the BMW 3 Series, Marcedes-Benz C-Class, Audi A4/S4/RS4, Mazda6, koda Superb, Volvo S60/V60, Jaguar XE, Citron C5, Peugeot 508, Audi A5/S5/RS5, BMW 4 Series, Volkswagen Arteon, Honda Accord, Toyota Camry and Polestar 2.[8]100,000 200,000 sales (Best-Selling)BMW 3 Series 7th generation (2018present)50,000 100,000 salesVolkswagen Passat 9th generation (20192024)koda Superb 4th generation (20162024)Mercedes-Benz C-Class 5th generation (2021present)Audi A4 5th generation (20192024)koda Superb 4th generation (2018present)Audi A4 5th generation (2018present)Audi (2023present)10,000 50,000 salesBMW 4 Series 2nd generation (20162024)Peugeot 508 2nd generation (20162024)Peugeot 508 2nd generation (2017present)Aldi A5/S5/RS5BMW 3 SeriesBMW 4 SeriesB Mondeo/TaurusHonda AccordHyundai IONIQ 6Hyundai SonataJaguar XEKia K5Lexus ISLexus RCMercedes-Benz C-ClassPeugeot 508Polestar 2koda SuperbSubaru LegacySubaru Leg Class136,474173,011176,038176,915150,995143,29381,90956,927 - 30%6VolvoS60/V6054,66354,35453,26845,33546,94565,91758,00347,054 - 19%7kodaSuperb46,14950,53385,87981,41074,69767,48859,92546,285 - 23%8BMW4 Series53,94872,76967,98364,71052,24835,90818,13933,083 +82%9AudiA5/S5/RS547,59145,20243,68661,61949,79941,81228,52526,100 -9%10Peugeot50841,79743,30137,10422,84213,37841,32929,01125,202 -13%11VolkswagenArteon9,79821,49519,04813,58220,994 +55%12Polestar 28,74620,949 +140%13Opel/VauxhallInsignia92,69488,54473,16172,34767,42445,92521,13320,384 -4%14FordMondeo45,40579,67370,90056,17349,59639,55521,22213,481 -36%15ToyotaCamry7,6409,1198,222 -10%16Alfa RomeoGiulia10,47524,67917,07510,9327,4366,297 -15%17SubaruLegacy/Outback6,41510,8068,2427,0167,4607,5043,8446,045 +57%18RenaultTalisman1,82434,34432,16319,78416,4058,0255,608 -30%19MazdaMazda631,03230,51929,22623,09022,0486,9504,890 -30%20JaguarXE16,53524,46118,99910,8777,9783,7802,039 -46%21KiaStinger1,1433,8203,6001,3871,142 -18%22BMWi4762New23LexusIS9,6107,7296,2345,6495,4133,2821,855551 -70%24KiaOptima3,4093,2639,51516,15214,40412,2026,086430 -93%25SubaruLevorg2,4374,6892,8651,7481,395825417 -49%26LexusRC305261,8151,3901,3341,08271096 -86%27GenesisG7096New28CitronC5 X63New29XpengP58NewMainstream527,783619,474625,185542,947450,035Premium613,234662,738709,754694,030584,091Segment total1,046,829787,815742,941 -6%Source[9][10][11][12][13][14] [15][16][17][18][6][7][19]Notes: Jump in segment total sales after 2019. year is because premium cars are included in total segment is because premium cars are included in D-segment total segment is because premium cars are included. No worries, we have your back! You can go take a look within the trunk and look for a sticker under the trunk deck lid, on the fuse box cover, inside the rear compartment, under the mat, or on the spare tire wheel well. A VW Color Code is typically 2,3 or 4 numbers long, but can also be a letter/number combination. If you are still struggling to find the paint color, you are able to call your dealership and provide them with your VIN # to be given the appropriate paint color. If you are ready to place your order or have any other questions feel free to reach us at 616-334-6200 Monday to Friday from 9 am to 6 pm EST or send us an email to [emailprotected] The back compartment panel of the trunk is typically where the paint code is located. What is the location of my VW paint code? VW paint codes can be found in numerous places, like with other automakers. The boot of the vehicle, where a white sticker is located, is the most frequently used spot for you paint information, a copy of it is also typically located towards the beginning of the service book. (often in the glovebox; this feature was added for later models). The paint code for SILBER BLAU in this photograph is LB5S or B5S. The code refers to the same exact color whether the L is present or not. Prior to placing a purchase, we always advise double-checking the vehicles color code. To guarantee that the correct color is ordered, this is by far the most dependable method. The next best option is to get in touch with your local VW dealers parts or service department with your registration or VIN number if you cant find your paint code on the car. They can check the manufacturer database for your color to confirm it. (Unfortunately, only dealers may access this system.) Please be as detailed as you can when placing an order. Which paint to test the reaction by rubbing it on a clean, white cloth that has been dampened with lacquer thinner. Enamel paint is evident if the color rubs off right away or the patch begins to wrinkle. However, lacquer paint can be identified if the color only comes off onto the white linen after thorough rubbing. How can I match the paint color on my car? Some people find the thought of matching touch-up paint to their vehicle overwhelming because cars and trucks come in so many different color variations. However, one of the few aftermarkets where manufacturers can agree on standards is touch up paint. To make color matching easier, touch-up paint materials are tagged and all vehicle paint is color-coded. You typically need to bring a sample to the retailer if you want the paint in your home to match. Your piece will be scanned, and theyll make a batch of paint for you that closely resembles the original shade. Although modern off-the-line production paint jobs are standardized, older (often faded) and custom vehicle paint you require. Typically, all you need is the correct code number to obtain the paint you require. How can I tell what color a paint is? Best for: Painting tasks and wall touch-ups that demand a color match that is as accurate as feasible. Advantage: By reading from a real paint store if all else fails and you need a perfect match for a wall that has already been painted. Although an analyst will come pretty close using a spectrophotometer, a device that breaks down color into its various wavelengths and then analyzes them to determine the precise combination of paint pigments needed to recreate the desired color, paint color is different from sheen, and an overly glossy sample can affect how the color is determined. will nevertheless get close. Thankfully, flat, matte, or eggshell sheens, which provide a closer match than glossier paints, are the most common sheens for wall paint. Using paint chips from the wall you want to match, follow these steps to match wall paint: On a small, inconspicuous area of painted drywall, score and remove a square with a sharp utility knife. You need a chip that is at least one inch square for the best results. The experts at the paint retailer will examine the chip using a spectrophotometer to determine which color from their brand is the most similar. Be warned, though, that while you should be able to come near enough to mislead the untrained eye, you might not be able to make an identical match because the majority of the well-known paint firms try to avoid duplicating a trademarked color. Remember to repair the area where you took the sample before using the fresh paint. with a scraper or dull blade, and allow it to completely dry. As with most car manufacturers VW paint codes can be found in several locations. The most reliable location is in the boot on a white sticker, you will need to remove the carpet section from the floor of the vehicle. The information sticker should be found on the floor or in the tyre well section of the boot area. This is the most popular location for you paint information but a copy of this sticker can also usually be found towards the front of the service book. ( usually found in the glovebox - This was introduced for later models). The paint code in this image is LB5S or B5S for SILBER BLAU. The code can be stated with or without the "L" both relate to the same identical colour. We recommend always confirming the colour code on the vehicle prior to ordering. This is by far the most reliable way to ensure the right colour is ordered. If you cannot locate your paint code on the vehicle the next best alternative is to contact a local VW dealer parts / service department with your registration / VIN number. They will be able to confirm your colour from the relevant manufacturer database. (Alas only dealers have access to this system) When placing an order please provide as much information as you can. Vehicle paint code systems can vary widely so we will use these extra details to double check your colour code and ensure we provide you with the correct colour for your vehicle.
