RBC Capital Markets said that regional banks “remain well reserved for potential losses” and have bolstered capital since 2023, suggesting the recent sell-off may have been overdone.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in

various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.

"We must collectively govern the integration of transformative tools like AI, which, powered by the immutable transparency of the blockchain, can finally move AML past the problem of low-value, static data," Fabiano said, calling the evolution "an opportunity, not a constraint" essential to securing a credible, compliant financial ecosystem.

Mitchnick told Bloomberg that many early adopters now prefer the convenience of managing their holdings through established financial institutions while retaining exposure to Bitcoin's price movements.

LimeWire has acquired Fyre Festival, eight years after what is widely regarded as the most disastrous attempt ever at throwing a festival. Previously led by founder Billy McFarland and rapper Ja Rule, LimeWire has gutted the Fyre team and is plotting a fresh, crypto-fueled start for the controversial brand.

Did you know? Candlestick charts originated in 18th-century Japan, where they were first used to track rice trading, long before making their way into modern crypto markets.
