A bull trap happens when the price pokes above resistance and then reverses, while a bear trap occurs when the price dips below support and quickly snaps back. These fake breakouts often result from forced liquidations and mean reversion, clearing out crowded positions.

In addition to maintaining a focus on short-term maturities, most central banks worldwide have already begun easing or are anticipating further easing, thereby keeping the front-end anchored.

Blockchain technology is rapidly developing worldwide, becoming an important driving force for digital transformation. As a distributed ledger technology, blockchain ensures data security and immutability through decentralized means. In the financial sector, blockchain technology has begun to transform traditional payment, clearing, and settlement processes, improving efficiency and reducing costs. At the same time, blockchain has shown tremendous application potential in various fields such as supply chain management, healthcare, and public services. With the continuous maturity of technology, we have reason to believe that blockchain will lay a solid foundation for the future digital economy.

The US dollar's hegemony is over, as evidenced by China's recent announcement of export controls on rare earth minerals, a critical component in electronics manufacturing and military defense applications, according to analyst Luke Gromen.

With court approval, the repayment deadline was extended from Oct. 31, 2024, to Oct. 31, 2025, and the trustee urged remaining creditors to finalize their submissions through the Mt. Gox claims portal.

He added that US political turbulence has deepened the cautionary mood. "The erosion of trust in policy stability is pushing capital toward defensive plays," Liu noted.
