The UK tax authority has ramped up its scrutiny of crypto investors, doubling the number of warning letters sent to those suspected of underreporting or evading taxes on digital asset gains.

But there's other big market players to consider, like Bitcoin treasury companies, according to Rick Maeda, a research analyst at Presto Research. He's especially interested in ones like Japan's Metaplanet, which has sworn off ever selling its BTC stash.

However, as the price failed to hold above \$110,000 on Thursday, that short-term confidence faded. While the hourly premium has turned negative, the daily reading remained slightly positive, indicating that long-term US buying support hasn't fully disappeared, but it is currently under strain.

The stated objective for the models is to maximize their risk-adjusted returns. The rules emphasize autonomy, requiring each AI to independently generate its trading ideas, size and time its trades, and manage its own risk, with all model outputs and corresponding trades made public for transparency.
