The campaign's gamified nature has also led to community engagement across social platforms, with participants sharing their progress, NFT achievements and referral milestones. This activity is generating continued interest in the campaign as it moves into its next phases.

In March 2025, the exchange began moving assets between its wallets, a likely step in preparing for further repayments ahead of the Halloween deadline.

Markets run 24/7, and a growing share of volume comes from high-leverage perpetual futures. That means even small order imbalances can trigger sharp, short-lived moves.

AI chatbots like Grok and ChatGPT have gained popularity among crypto traders, helping them anticipate potential altcoin rallies and identify lucrative entry points to avoid becoming exit liquidity.
