Regulatory developments are also helping to drive adoption. In the United States, the recently passed GENIUS Act establishes clearer oversight and reserve requirements for issuers, aiming to ensure transparency and consumer protection. In the United Kingdom, where legislation has progressed more slowly, regulators are working toward introducing a stablecoin framework by the end of next year.

Earlier in June, sources close to the matter told Decrypt that FalconX was exploring an initial public offering. The firm had reportedly begun early discussions with advisers about a potential listing within this year.

"The addition of licensed NHL markets could accelerate the platforms' growth trajectory in Q4, as official league partnerships bring credibility and attract new users," Jamie Elkaleh, chief marketing officer at Bitget Wallet, told Decrypt.

"The short-term trend—that began with the big liquidation event earlier this month—is down and traders might want to test the technical support in the \$100,000 and \$3,800 levels for BTC and ETH several times before there's either a sustainable rebound or a sharper move lower," he said.
