"We recently contracted for additional power and real estate in College Park to deliver high-value compute to the greater Atlanta metro area and are evaluating giga-campus opportunities across the portfolio and pipeline that are well positioned to satisfy significant off-taker demand."

He compared crypto to past financial disasters such as Orange County bankruptcy and Enron, calling it "opaque" and saying "it has no place in a pension system."

Grok and DeepSeek outperformed other major artificial intelligence chatbots in cryptocurrency trading, timing the market's local bottom before a recovery rally and

hinting at a possible edge for users who rely on their insights.

With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.

Operationally, Grayscale uses institutional custodians and a diversified network of validator providers for passive staking. This configuration helps manage risks like slashing or downtime while supporting liquidity. Clear disclosures, reporting and adherence to regulatory frameworks enhance investor confidence.

To some analysts, this inverse behavior suggests that the Bitcoin price is bottoming.
