He compared crypto to past financial disasters such as Orange County bankruptcy and Enron, calling it "opaque" and saying "it has no place in a pension system."

The spike showed the influence Musk still wields over speculative crypto assets, especially memecoins, which mostly follow hype.

The open banking framework, first proposed in 2022 under former U.S. President Joe Biden and finalized on October 22, 2024, allows consumers to securely share financial data with third-party apps through APIs (application programming interfaces).

In response to an X user's question, he also agreed that in the short term the chains from large financial giants could help mainstream adoption.

“The \$9 million transfer that Arkham and others have cited was simply a transfer to another wallet under his control. He did not send those funds to an exchange (yet),” he said. But he cautioned that it’s possible that World Liberty has access to non-public information that explains the blacklisting.

“Very soon better, fairer, more broadly accessible onchain investment platforms with healthy tokenomics will mature sufficiently so that VCs will have no choice but to set up shop on these platforms, if they want to stay in the game.”
