“The problem with this is that you are suddenly up against something that's been generated with 5,000 other actors,” Oscar winner Whoopi Goldberg said on The View. “It's got Betty Davis's attitude, it's got Humphrey Bogart's humor, it's got my humor. So, it's a little bit of an unfair advantage, but you know what? Bring it on.”

The sector continues to grow, with users of prediction market Myriad (launched by Decrypt's parent company Dastan) placing a 55% chance on the market cap of all stablecoins crossing \$360 billion before February 2026.

Chainalysis attributed Russia's surge in crypto adoption to two primary factors: a spike in large institutional transfers and the growing use of decentralized finance (DeFi).

Blockchain security is the foundation and guarantee for the development of blockchain technology. Due to the complexity of blockchain systems, their security issues involve multiple aspects such as cryptography, consensus mechanisms, and network security. Common security threats include 51% attacks, smart contract vulnerabilities, private key leakage, etc. To ensure the security of blockchain systems, measures need to be taken from multiple levels such as technology, management, and law. With the widespread application of blockchain technology, blockchain security will become increasingly important and will attract more professional talents to engage in it.
