The fund was on track to hit \$100 billion in assets under management and become the youngest ETF to cross that milestone, but last week's market crash derailed the timeline.

The outlet found that about half of all crypto advertisements flagged by the FCA between October 2023 and October 2024 remained online despite warnings.

When shorter-term EMAs trade above longer-term ones like this, traders see it as a good sign. This configuration suggests money is positioned bullishly across multiple timeframes, from swing traders watching the 50-day to long-term holders focusing on the 200-day. Watch the candlesticks on weekly timeframes, and the gap between both averages is also bullish, and increasing over time.
