This update allows anyone who staked 500,000 HYPE tokens, about \$20 million, to deploy their own perp swap contract with independent margining, orderbooks and parameters.

This article discusses what crypto staking is, what has prevented greater institutional participation and how Grayscale has encouraged the institutionalization of crypto investment. It also highlights regulatory and market changes surrounding staking and explains how Grayscale's spot crypto ETPs deliver staking yields to investors. Finally, it outlines the risks associated with staking funds and shows how Grayscale's ETPs have shifted crypto from a
