Blockchair is a multichain blockchain explorer that goes beyond Ethereum. It offers support for major networks such as Bitcoin, Dogecoin and more. Its advanced filtering and data export tools make it especially useful for researchers, analysts and organizations that need detailed blockchain insights.

In late 2022, the company disclosed it was among several firms affected by the collapse of FTX, with a portion of its assets trapped in the now defunct exchange.

Also, not every coin came from the market; geothermal mining reportedly added around 474 BTC over three years (small in energy terms, but still additive).
