The introduction of Google's AI summaries has raised huge red flags for web publishers, however, as users are less likely to visit their sites if the information is extracted and provided up front. The issue is compounded by AI's tendency to hallucinate, and even provide dangerous answers based on flawed sources.

retail investors are known for entering the market during periods of euphoria, typically after strong rallies or new all-time highs. Still, despite Bitcoin hitting multiple all-time highs in 2025, the general public's interest and retail activity continue to lag.
