In their Telegram group, members have also brainstormed ideas for future attacks. Proposed targets include the Boston Marathon, a Lady Gaga concert and Wimbledon.

Among major layer-1 tokens, he singled out Solana for its standout potential. “Solana remains one of the most interesting assets among major altcoins,” Verbitskii noted, citing its strong fundamentals. “If the current market momentum holds, a move toward the \$300 to \$400 range by year-end looks realistic.”

Regulatory developments are also helping to drive adoption. In the United States, the recently passed GENIUS Act establishes clearer oversight and reserve requirements for issuers, aiming to ensure transparency and consumer protection. In the United Kingdom, where legislation has progressed more slowly, regulators are working toward introducing a stablecoin framework by the end of next year.
