The primary struggle for a crypto investor is not a lack of information but a relentless deluge of it. News websites, social media feeds and onchain data streams constantly churn with updates that can be overwhelming. XAI's Grok 4 aims to change that. It pulls live data straight from X, pairs it with real-time analysis and filters signals from noise. For a market that is heavily influenced by narrative momentum and community chatter, this is indeed a notable capability.

Deployers can set a fee share of up to 50% on top of the base fee rate and will be defining the markets, including oracle and contract specifications. They will also be setting the oracle prices, leverage limits and settling if necessary.

Cointelegraph has approached SpaceX for comments on the reason behind the Bitcoin transfer.
