Derivatives traders are expecting a slightly more optimistic outlook for Bitcoin in September despite macroeconomic uncertainty and seasonality odds, with experts indicating muted downside volatility.

With Grok 4, you can automate the first round of filtering — for example, summarizing white papers, spotting tokenomics red flags and checking liquidity. By the time you get to manual research, you are already down to the 10% of projects that actually deserve your attention.

This conservative approach effectively took it out of the running for major gains, but also protected it from the significant downturns experienced by some of its rivals, positioning it as a more stable, if unprofitable, participant. Meanwhile, Claude Sonnet was comfortably in third place among the six contenders.
