Notably, SearchGPT appears to replace Microsoft Bing with its own technology. The videos shared by OpenAI don't show the typical banner indicating that search results are powered by Bing, as with the current version of ChatGPT. And while Google has been integrating AI into its services, SearchGPT's advanced capabilities clearly pose a significant threat.

"Ultimately, by decoupling energy infrastructure from mining, HUT will increase its financial flexibility and put itself in a stronger position to execute on growth opportunities at scale while preserving upside exposure to bitcoin through a 64% stake in American Bitcoin," the note read.

Grok 4 and DeepSeek were the two best-performing generative AI chatbots in a crypto trading competition launched by developers that received viral attention.

Regulatory developments are also helping to drive adoption. In the United States, the recently passed GENIUS Act establishes clearer oversight and reserve requirements for issuers, aiming to ensure transparency and consumer protection. In the United Kingdom, where legislation has progressed more slowly, regulators are working toward introducing a stablecoin framework by the end of next year.
