SearchGPT is the latest development in what appears to be a new era in web search, which The Verge's Nilay Patel has termed "Google Zero." This approach prioritizes practicality over variety: instead of presenting a list with different sources and approaches to a specific query, which encourages users to do their own research, AI-powered search engines opt for a more direct tactic, providing concise, summarized information responding exactly to what users are looking for.

The main goal of VCs like Paradigm is to "suck as much value as possible from the Ethereum and broader ecosystem," while their secondary goals include "progressing the systems towards rigorous decentralization," wrote Lubin in a

Monday X post, adding that there is “no reason for concern.”

Regulatory developments are also helping to drive adoption. In the United States, the recently passed GENIUS Act establishes clearer oversight and reserve requirements for issuers, aiming to ensure transparency and consumer protection. In the United Kingdom, where legislation has progressed more slowly, regulators are working toward introducing a stablecoin framework by the end of next year.

In other words, the slight price bump is not being driven by aggressive buying. Instead, the move coincides with more passive buying.

Japan’s new Prime Minister, Sanae Takaichi, announced a package of economic stimulus measures on Tuesday to ease the impact of inflation on households. The move, some crypto observers said, may drive more capital into Bitcoin.

“I’ve been saying for the past two years that the influence of @paradigm within Ethereum could become a relevant tail risk for the ecosystem. I believe this will become increasingly clear to everyone in the months ahead.”
