But here's where things get interesting: BNB has been riding a powerful parabolic support line since mid-year. The chart shows a clear parabolic advance—the kind that can deliver explosive gains but also tends to end with equally explosive corrections. Looking at the projection, if this trajectory continues uninterrupted, BNB could be trading near \$2,000 by December 31, potentially delivering another 67% gain from current levels over the next 89 days.

In the letter penned by chief legal officer Paul Grewal, dated Oct. 17 and shared to X on Monday, he argued money laundering schemes have become increasingly sophisticated through the use of advanced technologies, and law enforcement needs to follow suit to counter them.
