Dori expects the UK launch to pave the way for broader crypto product offerings, noting that "in the U.S., additional ETPs beyond BTC/ETH and the first diversified crypto baskets are progressing through preparatory stages."

"What that means is that when you remove a result from search under our policies, in addition, what we'll do is on any query that includes your name—or would be likely to surface that page from search—all explicit results will be filtered," the spokesperson said. "So not all explicit results will be removed, but all explicit results will be filtered on those searches, which prevents them from appearing on searches where it would be likely to show up."

According to the Director of Global Macro at Fidelity, Jurrien Timmer, the recent pullback resembled the late-1990s “super bull” phase, when speculative assets saw sharp but temporary drawdowns before surging higher again.

Watch for spoofs, large bids or asks that vanish on contact, creating the illusion of support or resistance. Spoofing is unlawful in regulated futures markets, and similar patterns have been documented on crypto exchanges. Treat sudden order book shifts with caution.

To determine whether Ether whales are truly betting on further downside or simply hedging amid worsening macroeconomic conditions, it is useful to examine top traders’ positioning on derivatives exchanges. This metric combines data from futures, margin, and spot markets, offering a clearer view of short-term sentiment.
